

AXISCADES to partner with Slovakian company, Virtual Reality Media on full flight and full mission simulators

Villepinte/Bangalore, 15 February 2017 AXISCADES, leaders in Aerospace and Defence technologies, and Slovakian company Virtual Reality Media (VRM) today announced signing of an Industrial Cooperation Agreement (ICA), at the Aero India 2017 to address the growing needs of Indian Defence and Aerospace sector, which is a key growth driver for the “Make in India”.

Under the ICA, both companies will evaluate opportunities for full flight simulator for the defence sector to address the requirements for Russian platforms and others, such as the Dornier 228 aircraft.

Mr. Sudhakar Gande, Vice-Chairman of AXISCADES said, “This partnership with VRM will boost India's modernisation efforts. Defence simulation is a growing and significant sector. Defence simulators create realistic conditions to train and enhance combat responses at a lower cost in a time effective manner. We take pride in the fact that AXISCADES has been successfully partnering with global companies in the past and continue to build strong relationships with global OEMs to strengthen India’s defence capabilities.”

He added, “It will give us access to established and state-of-the-art full flight and full mission simulators required for India's aerospace and defence needs. It is in line with the company's strategy to build strong partnerships with global OEMs, who are leaders in their respective businesses. This is another milestone for AXISCADES, as one of the premier aerospace and defence companies of India.”

AXISCADES is a licensed defence manufacturer and a preferred Indian Offset Partner (IOP) for high-end strategic technologies for aerospace and defence solutions. This partnership will help AXISCADES increase its contribution in the Make in India business and to become an integral part of OEMs’ global supply chain delivering simulation solutions.

Slovakia- based VRM has 24 years of expertise in simulation. It provides a full range of solutions worldwide—from part task trainer up to the full flight and full mission simulators—not only for Russian platforms but also for other European platforms.

Julius Berith, Chairman of VRM said, “India is a key market for us, and we are excited to forge this strategic partnership with AXISCADES, which specializes in the Aerospace and Defence markets. We will work together and contribute to the Make in India initiative on various aerospace and defence simulation programs in India.”

About AXISCADES Aerospace & Technologies Pvt. Ltd

AXISCADES Aerospace & Technologies Private Limited (AXISCADES) is a niche player focussed on high-end strategic technologies for the aerospace and defense sector with a proven track record. The company has built proprietary capabilities in system integration, design and development of solutions and platforms in the areas of automatic test equipment & test solutions, software and simulations, avionics, electronic warfare systems and paramilitary training solutions. AXISCADES is licensed by the MoD to undertake industrial manufacturing and is an industrial partner to marquee global aerospace and defence OEMs.
