

AXISCADES and VRM partner to supply Simulators for Jet Trainer Aircraft

AXISCADES and VRM have signed an Industrial Cooperation Agreement for design, build and supply of Simulators for the Jet Trainer aircraft. This partnership of AXISCADES and VRM is fully prepared to produce and deliver world class Simulators for the training of Indian Air Force pilots.

Virtual Reality Media, a.s. (VRM) Slovakia, a premium company, engaged in design, development and production of state-of-the-art simulators and training systems.

AXISCADES, is a pioneer in the design and supply of Avionics and Ground systems for Defence Forces, in India and globally. AXISCADES has supplied several high technology systems to Indian Defence and has implemented multiple Defence Offset & Make In India programs.

VRM and AXISCADES are working on DO-228 Level-D Full Flight & Mission Simulator (FFMS) for Hindustan Aeronautics Limited (HAL), for which the contract has already been awarded to VRM. AXISCADES, is the industrial partner to VRM in India to perform a significant workshare for the project. VRM and AXISCADES, are fully aligned to the "Make in India" initiative and committed to make it a success.

AXISCADES and VRM, would now, like to expand the above partnership and participate as a key player in the field of Flight Simulators for all Defence and Civil requirements in India. AXISCADES, will continue to play the role of Key Industrial Partner to VRM and undertake the supply and integration of Cockpit, Motion System and Visual Display System including the modelling of designated military and civil airports, as per the needs of the project.

Mr. Sharadhi Babu, C.E.O of AXISCADES said, "Simulators are the need of the hour that enable Defence Forces to maintain and sustain operational readiness of mission critical equipment such as Aircraft, Radar and Others. The combined technology expertise and experience of VRM and AXISCADES is aptly suited to offer the most efficient equipment at a competitive price. We take pride in the fact that we have built successful partnerships in the past and continue to build strong relationships with niche global companies to contribute towards the future needs of India's Aerospace and Defence sector."

Mr. Eduard Cristea, VP Sales and Marketing said, "Creating an industrial partnership with AXISCADES proved to be a success story, and is literally, combining the "best from both worlds" contributing to today's and future India's Aerospace and Defence needs. "Make in India" initiative allows VRM to provide, not only the workshare to our partners, but truly brings much desired "know-how" ability to them. VRM is totally committed to provide the best valued solutions to our customers worldwide. Creating a strong local partnership is the best way to prove it right."

AXISCADES and VRM are honoured that Hindustan Aeronautics Ltd, Indian Ministry of Defence, Indian Air Force and the Indian Defence Forces, continue to trust and support the group as industry's premier provider of High-Fidelity simulation equipment for their training programs.

About VRM

VRM is a modern high-tech company with more than 25 years of experience in the design, development, production, and technical support of flight simulators and training systems for fixed wings and rotary, ground forces, in all categories, from basic cockpit procedures trainers through full flight and full mission simulators. All of this is produced utilizing in-house design and development of the state-of-the-art software.

About AXISCADES

AXISCADES Aerospace & Technologies Private Limited is a niche player focussed on high-end strategic technologies for the aerospace and defence sector with a proven track record. The company has built proprietary capabilities in system integration, design and development of solutions and platforms in the areas of automatic test equipment & test solutions, software and simulations, avionics, radars, electronic warfare systems, drones & antidrone systems and training solutions. AXISCADES is licensed by the Ministry of Defence of India to undertake industrial manufacturing and is an industrial partner to marquee global aerospace and defence OEMs.
